Goodman®
Air Conditioning & Heating

GPC13H/GPH13H
AIR CONDITIONING AND HEAT PUMP PACKAGED UNITS

Thank goodness for Goodman®
ENERGY EFFICIENCY IS KEY...

...to controlling the cost and comfort of heating your home. Goodman® brand GPC/GPH13H Packaged Air Conditioners and Heat Pumps provide value and cutting-edge technology to homeowners and small businesses. Plus, our extensive product offering ensures that you get the right system for your specific cooling and heating needs.

Goodman brand packaged units sit on the ground or rooftop outside your home or business and deliver quiet, year-round comfort from a single, self-contained unit. These energy-efficient units operate as an air conditioner during warm weather, and in the winter deliver electric or heat pump-generated warmth.

COMFORT. SAVINGS. PERFORMANCE.

PACKAGED AIR CONDITIONING
An energy-efficient Goodman brand GPC13H Packaged Air Conditioner is your best bet for long-lasting, high-efficiency air conditioning where space is at a premium.

PACKAGED HEAT PUMPS
The high-quality Goodman brand GPH13H Packaged Heat Pump provides economical air conditioning, then, by reverse cycle, delivers economical heating during colder periods. Supplementary electric heat is added at predetermined temperatures during cold spells.

RELIABILITY AND LONG LIFE
One of the most critical components of a packaged air conditioner or heat pump is the compressor. Goodman brand GPC/GPH Packaged Air Conditioners and Heat Pumps boast high-performance, high-efficiency compressors, which operate in tandem with our high-efficiency coil. The coil is made of refrigeration-grade copper tubing and aluminum fins in a design that maximizes surface area. These high-quality components together cool your home effectively.

R-410A REFRIGERANT
Compared to lower SEER, R-22 refrigerant units, your new Goodman brand GPC/GPH13H Packaged Air Conditioner and Heat Pump will not only provide you with money-saving cooling performance for many years, but it also features R-410A refrigerant. This refrigerant does not contain chlorine. Introduced in 1995, R-410A refrigerant has helped increase the durability and reliability of heat pump compressors.
IMPRESSIVE FEATURES AND BENEFITS:
GOODMAN® BRAND GPC13H/ GPH13H
PACKAGED AIR CONDITIONER AND HEAT PUMP

- Energy-efficient compressor with internal relief valve
