GSC13 ENERGY-EFFICIENT AIR CONDITIONERS

Thank goodness for Goodman®
ENERGY EFFICIENCY IS KEY…
TO CONTROLLING THE COST AND COMFORT OF HEATING YOUR HOME

As the owner of a Goodman® brand GSC13 Energy-Efficient Air Conditioner, you have made one of the best purchasing decisions possible in the HVAC marketplace. Why do we say this? Because we strive to build heating and air conditioning equipment that offers high performance, energy efficiency and durability — all at a price that will have you saying, “Thank goodness for Goodman.”

ENDURING, EFFICIENT PERFORMANCE

In particular, your Goodman brand GSC13 Energy-Efficient Air Conditioner will provide you with reliable cooling at money-saving energy efficiency levels as compared to lower SEER units. Benefits of this high-quality air conditioner include:

- An energy-efficient compressor
- A high-efficiency condenser coil made of corrugated aluminum fins and rifled refrigeration-grade copper tubing
- A factory-installed in-line filter drier

Add to that a 5-Year Parts Limited Warranty* on all functional parts, and you have an air conditioner that offers what we believe to be one of the best product values in the industry.

DURABLE CONSTRUCTION

We take pride in our manufacturing processes and build each unit carefully. We rely on strict, quality-driven processes to build well-designed, top-quality and thoroughly-tested products.

We leak-test every air conditioner three separate times during the manufacturing process, and we run-test each unit before shipment. This quality focus insures a trouble-free installation and a long product life.

YOUR UNIT’S OPERATING COSTS AND SEER

“SEER” stands for Seasonal Energy Efficiency Ratio, which is a measure of an air conditioner or heat pump’s cooling energy efficiency developed by the U.S. Department of Energy. It’s a simple formula: the higher the SEER of your unit, the greater its efficiency – and the lower your operating costs. Older installed units in many homes have operational efficiencies of 8.0 SEER or even less. In many cases, these lower SEER units can really inflate the electric bill.

When properly matched and installed, your new Goodman brand GSC13 Air Conditioner offers efficiencies that provide significant savings compared to lower SEER units.

IMPRESSIVE FEATURES AND BENEFITS:
GOODMAN® BRAND GSC13
ENERGY-EFFICIENT AIR CONDITIONERS

- 5-Year Parts Limited Warranty*
- High-performance, energy-efficient compressor
- Factory-installed liquid-line filter drier
- High-efficiency condenser coil made of corrugated aluminum fins and rifled refrigeration-grade copper tubing
- Louvered cabinet made of heavy-gauge galvanized steel that protects the condenser coil
- Attractive new design, finished in an architectural gray color that complements any home environment
- For use with R-22 refrigerant; charged with inert gas for shipping
- Three-bladed fan and a louvered sound-control top
- Department of Energy (DOE) rated

Talk to your Goodman brand dealer about opportunities to optimize the efficiency of your new unit.

OUTSTANDING WARRANTY PROTECTION

* Complete warranty details available from your local dealer or at www.goodmanmfg.com.

ADDITIONAL INFORMATION
Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.
GOODMAN: THE RECOGNIZED INDUSTRY LEADER

Every Goodman® brand heating and air conditioning system is designed, engineered, and manufactured with pride. All employees follow strict, quality-driven processes to ensure that all Goodman products offer the legendary performance that has made the brand a recognized leader in the industry. This attention to quality has resulted in the Goodman family of companies becoming the second largest unit manufacturer of residential air conditioning and heating systems in North America.

GOODMAN – A MEMBER OF DAIKIN GROUP

Daikin Industries, Ltd. (DIL) is a Fortune 1000 company with more than 49,000 employees worldwide, making it the number one residential and commercial HVAC manufacturer in the world. Daikin is engaged primarily in the development, manufacture, sales and aftermarket support of heating, ventilation, air conditioning and refrigeration equipment, refrigerants and other chemicals, as well as oil hydraulic products. DIL is headquartered in Osaka, Japan, has manufacturing operations in 18 countries and a sales presence in more than 90 countries.

The company provides innovative, premium quality indoor climate management solutions to meet the changing needs of residential, commercial and industrial customers.
